simonibalo@gmail.com

Perfil Profesional

- Project Manager with experience in software project management and web development.
- Ability to translate business needs into digital solutions.
- Experienced in Agile Methodologies, cost and time estimation, MVP definition, team coordination, and requirements capture.
- Strong technical knowledge in UX/UI and attention to detail.

Work Experience

PM jr | UI Engineer

Tricks Games Studio | Feb 2021 - Apr 2024 | Remote

- I joined the company as UI Engineer on a large-scale project with the International Olympic Committee and Nway, collaborating from Argentina with teams in Korea and the United States.
- Last year I led the development of the customer service tool, under the supervision of a senior PM, using Scrum.
- I captured stakeholder requirements and conducted product demonstrations in English.
- Managed the backlog with Jira, made estimates and defined the scope of MVPs.

PM | UI Engineer

Terciar Consultores | May 2014 - Sep 2020 | Hybrid

- I joined the company as a part-time UI Engineer, developing interfaces for WordPress-based websites and custom software based on Ruby on Rails.
- After the second year, I was promoted and assigned to manage some projects.
- I managed more than 20 projects related to custom software, web and e-commerce.
- Last year I led the e-commerce business unit, tripling the client base.

Business Analyst

Grupo Prominente | May 2014 - Apr 2016 | On Site

- I captured requirements and prototyped features for a corporate ERP.
- Coordinated communication between end users and development teams.
- I provided outsourcing services to clients such as BRa and Metrovías.
