

Simón Yamil Ibaló

UX/UI Engineer - Argentina

[LinkedIn](#) | [Portfolio](#) | simonibalo@gmail.com

Profile

Twelve years of experience working with agile methodologies, seven years in remote environments. Nine years as a web UI developer (pixel perfect), four years as a front-end developer on React JS. Six years working on e-commerce.

I started my career as a Business Analyst, which gave me **strong empathy to understand user needs and align them with business goals**. Excellent interpersonal skills. Experienced in user research, information architecture, prototyping, and interaction design.

Work Experience

UX/UI Engineer - [Accelone](#) ARG-USA 2024-2025

- Working as part of an Argentine team hired by a US-based company ([Monetate](#)) to evolve the front-end of an enterprise SaaS platform delivering AI-powered real-time personalization (A/B testing, audience targeting and product recommendations) used by **100+ global retail brands** such as Adidas, Chanel, Lufthansa.
- Contributing to an ongoing migration of the product interface from Google Closure to React.
- Shipping features behind feature flags, coordinating gradual rollouts with product, QA and backend to de-risk major UI changes.

Highlight: *fully English-speaking, cross-cultural environment, participating in agile ceremonies, technical discussions and internal live demos with a global-based team.*

Tech stack: React 16.8, Flux, JS(ES6), SASS (BEM), Google Closure, Webpack, Jest + Enzyme, ESLint, Jenkins CI, AWS, EC2 instances, Django, Python, Claude, Cursor, GitHub, Jira, Scrum.

UI Engineer - [Creamos](#) ARG-USA 2024-2025

- Developed interfaces for e-commerce and marketing platforms. Featured project [CHOC](#) NY.
- Tech stack: HTML5, CSS3, JS, Webflow, Shopify, Smootify, Relume, Scrum.

UX/UI Engineer - [Trick Studio](#) ARG-USA 2021-2024

- Developed the **React JS** interface for Nwayplay (NFT Marketplace).
- Conducted **UX research**, **prototyping**, evaluation, and **interaction design** for the customer support tool within the same marketplace. Colaborated on the CStool development, working on **ReactJS**, **Material UI**.
- Proposed new features, conducted **demos in English**, and gathered requirements from stakeholders.
- Developed the user interfaces for the customer service tool with ReactJS and Material UI.

Highlight: *Created customizable, metric-based reports that helped detect suspicious and potentially fraudulent activity within the NFT marketplace.*

Tech stack: ReactJS, Material UI, HTML5, CSS3, Sass, BEM, JS, Jira, Trello, GitHub, BitBucket, Figma, Miro, Scrum.

UI Engineer - Consultant - [Terciar Consultores](#) ARG 2014-2020

- Developed **user interfaces** for 5 **custom software** solutions and over 30 **WordPress**-based projects.
- Two years after joining, I began working in the e-commerce department as a frontend developer.
- I also worked with clients, creating proposals, estimates, and setting the scope for the MVP.

Highlight: *In my last two years, I led the e-commerce business department, successfully tripling the client portfolio.*

Tech stack: HTML5, CSS3, Sass, BEM, JS, Trello, GitHub, BitBucket, Bootstrap, Materialize CSS, Google Workspace. WordPress, WooCommerce, DIVI, Elementor, Gutenberg, Scrum.

UX/UI Engineer - Part Time ARG - Mimuju EdTech 2018-2020

- Participated in **Design Thinking** and **Agile Inception Deck** discovery process.
- Designed and developed web app interfaces to facilitate communication between teachers and tutors, support lesson planning, and enable effective monitoring by school directors.

Tech stack: HTML5, CSS3, JS, MaterializeCSS, Sass, GitHub, Scrum.

Technical Instructor (developers trainer) - Part Time ARG - Government - 2016-2020

- I conducted comprehensive theoretical and hands-on classes covering a spectrum of topics, including:
 - Web Development (HTML5, CSS3, JS, Bootstrap, MaterializeCSS, Responsive Web Design)
 - Agile methodologies (Kanban, Scrum)
 - Programming Fundamentals using Python and Django.

Today, I take pride in noting that over half of my former students have transitioned into fulfilling roles within the software industry.

Business Analyst - Full Time ARG - [Grupo Prominente](#) - 2014-2016

- I've engaged with end-users across various organizational levels to capture requirements, subsequently conceptualizing and prototyping new features for integration into the company's ERP software.
- Additionally, I provided outsourcing services to two prominent client companies, BRa and Metrovías, ensuring their specific needs were met with tailored solutions.

Business Analyst - UI Dev - Full Time ARG - Optimal - 2008 - 2011

- In this custom software company, I started as a business analyst, and I was involved in UI development too. I worked in several sectors like insurance, delivery, retail, traceability at food factories, and health.

Skills:

Hard Skills: ReactJS, Material UI, HTML5, CSS3, JS, BEM, SASS, Responsive design, animations and microinteractions, pixel perfect, GitHub, BitBucket, Webflow, Shopify, Bootstrap, Materialize CSS, WordPress, Woocommerce, DIVI, Elementor, Gutenberg, Figma, Jira, Trello, Slack, Discord.

Soft Skills: Scrum, Design Thinking, Agile Inception Deck, User Stories
